

# Windscreen replacement

Make sure every  
area is covered

## Essential Cover

# screen OR GLASS

**This useful policy is for those drivers who do not have windscreen cover automatically included in their standard motor insurance.**

More insurers are excluding windscreen breakage within their comprehensive insurance and most CV's are not covered.

The windscreen is not covered in TPF&T policies.

It covers breakage of the windscreen or vehicle glass, or any damage to the windscreen that is sufficient for the vehicle to fail its MOT.

The policy carries the minimum £50 excess, provided the client uses the insurer's recommended glass replacement company.

## Benefits

**Windscreen replacement cover offers significant benefits:**

- Enables you to offer your clients greater choice for their motor insurance
- Competitive pricing – giving you the edge
- Simple and straightforward to issue
- Particularly relevant to commercial vehicles
- Useful addition to TPF&T cover

**Our chosen repairers operate throughout the UK and aim to provide a first-rate service, minimising any inconvenience to your client. All they have to do is call our hotline number and one of our operators will organise the time and place for the glass replacement.**
